

Mohamed Adel Zayed

Front-End Developer

📍 Tanta, Egypt ✉️ zayd0497@gmail.com ☎️ 01227245823 [in LinkedIn](#) [GitHub](#) [Portfolio](#)

SUMMARY

Motivated Front-End Developer with hands-on experience building responsive web applications using Nextjs, React, Tailwind CSS and modern toolchains. Strong focus on crafting intuitive UI/UX, optimizing performance, and integrating APIs to deliver clean, maintainable, and production-ready solutions.

EDUCATION

Tanta University — Bachelor of Computer Science, Faculty of Computers and Information **Sept 2021 – June 2025**

- Graduated with a strong foundation in software engineering, data structures, and algorithms, supported by coursework in Web Development, Database Systems, and Operating Systems, with a strong emphasis on problem-solving skills.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, C++, Python, Java

Frameworks: Next.js, React, Tailwind CSS, Bootstrap, MUI, Ant Design, Chakra UI

State Management: Redux (Familiar), React Query (TanStack), Zustand, Context API.

Tools/Platforms: Git, GitHub, Postman, Figma, RESTful API, GraphQL, Firebase, Supabase.

EXPERIENCE

Freelance Front-End Developer **2023 – Present**

- Delivered efficient and fully responsive web apps, like movies-app, e-commerce, booking, and other platforms.
- Built secure authentication, efficient state management, API integrations, and optimized performance across devices.

Front-End Developer Intern – Naqla Sehaia Company, Alexandria **Sep 2025 – Dec 2025**

- Developed and maintained the company's ERP system with responsive web interfaces using React and Tailwind CSS, collaborating with team members to deliver real features and improve UI/UX quality.
- Integrated APIs with backend teams, worked on Figma designs, and optimized performance following best practices.

Training Projects – Route IT Training Center **Sep 2024 – Mar 2025**

- Completed Front-End Diploma, learning key concepts and building projects with components, routing, forms, testing.
- Gained hands-on experience in collaborative development, including team coding and code reviews.

PROJECTS

Movies Stream App [Live](#) — [GitHub](#)

- Movies and TV streaming platform featuring real-time search, advanced filtering, pagination.
- Detailed media pages with animated, optimized UI for performance.
- Key tools: Next.js, React 19, Tailwind CSS 4, Swiper, Framer Motion, Axios.
